REPORT OF THE LIBRARY FOR 1920.

The difficulty of securing good books has been more apparent the past year than usual and the lack of suitable shelf room is a constant inconvenience.

Several books have been given by Mrs. Frank H. Brown of Lakeport.

We are pleased to report that by the purchase of the "Baptist Meeting House Lot," so-called, a site has been secured for "The Elkins Public Library."

With the advent of more favorable building conditions we hope to secure a building that will serve the public library in years to come.

LEROY A. GLINES,
JOSEPHINE M. BROWN,
ELIZABETH F. HOUSER.

TREASURER'S REPORT.

Totals	\$3,146.85	\$2,871.16	\$6,018.01	\$4,817.24	\$1,200.77

NOTE: Numbers marked (a) in last column, represent/decreases.

MONEY NEEDED FOR THE BALANCE OF THE CURRENT YEAR.

From the table of "Payments for Last Year and Current Year Compared" you will note that we estimated that there will be needed to complete the current school year ending August 31, 1921, \$2,871.16

Against this amount the following funds are available:

Balance in hands of school treasurer February 1, 1921,	\$77.78
Balance due from selectmen,	791.06

Total,	868.84
--------	--------

Leaving a deficit of	\$2,002.32
----------------------	------------

This deficit is caused both by a decrease in revenue and an increase in expenditures, as follows:

Total revenue available for last year, \$4,817.24

Total revenue available for current year,	4,015.69
---	----------

Decrease in revenue,	\$801.55
----------------------	----------

Increase in payments,	1,200.77
-----------------------	----------

Deficit,	\$2,002.32
----------	------------

It is, therefore, necessary that we recommend that the district raise \$2,000 for continuing the schools for the remainder of the current year and that the school board be authorized to borrow this sum in anticipation of taxes.

The above estimates, which are as careful as we can make, do not include any amount for repairs. The Center school needs shingling and this work cannot be postponed until the end of the year. An added sum is needed for this purpose.

MONEY NEEDED FOR THE COMING YEAR.

It is very unfortunate that the district did not at the last annual meeting, comply with the requirements necessary to receive aid from the state. Our experience for the present year is certainly sufficient evidence to every citizen that we should do so for the coming year unless the legislature, now in session, materially changes the law. We, therefore, recommend that the district raise a tax of \$5 on \$1,000 valuation for the support of elementary schools (including text-books, scholars' supplies, and flags).

In addition to the \$5 tax we shall need:

For high school and academy tuition,	\$800.00
--------------------------------------	----------

Estimated tax for state-wide supervision (\$2 per pupil),	\$220.00
--	----------

The law provides that the salaries of the school board, the district officers and truant officer, be fixed by vote of the district.

We recommend that the district raise for all other purposes,	\$250.00
--	----------

Respectfully submitted,

FRANK L. BROWN,
FRANCIS P. CASS,
CAMILLA S. HILDRETH,
School Board.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens:

During the year the superintendent's work in the union has become better organized, the needs of the schools are better understood, and, in some cases, have been better supplied. For several years Canterbury has not expended all its appropriation for text-books and supplies. We have this year drawn on this unexpended balance and have made considerable improvement in our text-books. All the schools have been furnished with new geographies and some new arithmetics have been bought.

The school boards in all five districts of the union have now adopted the Uniform Accounting System devised by the State Tax Commission and prescribed by the State Board of Education, and have this year arranged to have all their bookkeeping done in this office. The superintendent's secretary has charge of this work, but a considerable amount of it is actually done by the senior class in commerce of Penacook High School.

The first draft of the financial report for each of the five districts was made by the secretary and the pupils, using the annual report to the state tax commission as a basis. This draft, corrected by the superintendent and rewritten, was then presented to the school board, amended by them to meet their own requirements, and returned to the secretary to be put into final form for printing.

The directing of this work has taken more of my time during February than could be properly given to such work every year, but it is hoped that the form of this report will meet the requirements of both state and district accounting to such a degree that it can be used as a pattern for several years to come.

There is still a scarcity of good teachers. In some towns of the union it has been very difficult to secure them and in several cases teachers below the minimum standard

of qualification have been hired on a special permit. It is most important that our teachers should be above the minimum standard in education and training; and in personality, for which there can be no standard, a better type is needed in a considerable number of instances. This paragraph, you will note, is applied to the entire supervisory union rather than to any one town. Any narrower application might make some over-sensitive teacher believe that I am singling her out for criticism, which is the farthest from my intention.

The large deficit reported by the school board will not tend to make the voter take kindly to any suggestions concerning improvement of buildings. The board has mentioned the roof of the Center schoolhouse. The toilets also need to be repaired and painted.

If remote schools like the Uplands, are to retain good teachers in competition with schools nearer the railroad, they must offer more attractive buildings. The walls and ceilings, both in the school room and the entry, need painting and some patching. As the seats now face, trees obstruct the light at the back and left of the children. I suggest that the seats be turned to face in the opposite direction.

At the Carter school there is no window in the boys' toilet. It is to the credit of the boys and the teacher that this dark closet has been kept comparatively clean. The school room is not fitted to house so large a number of children. It is small, low-posted and poorly lighted. Of the four schoolhouses now in use, this is the most difficult to make satisfactory. The best suggestions I can make at present are as follows:

The entry partition might be torn out, making the room square and larger, and an addition built for an entry. The seats should then be turned to face the north and the north windows closed, and a blackboard placed the entire length of the north wall. Painting the ceiling

white and the walls some light color, would make the room lighter, but more windows ought to be cut on the west side at the left of the pupils. A jacketed stove would improve the circulation of air and is certainly needed in this low-posted room.

The State Board of Education has delayed in enforcing to the letter its minimum requirements for school-houses; but it is reasonable to expect that Canterbury will not receive state aid until windows at the front of pupils are closed, the ceilings of all the school rooms painted white, or nearly white, and a second toilet is provided at the Blanchard school.

I occasionally note the tendency in individual citizens, even board members, to feel that the state has now taken over the education of its children and that local interest is no longer important. The state sets minimum standards, it is true, as to buildings, equipment, teachers and curriculum, but it is still the privilege and the duty of the individual district or its school board to determine, within these standards, what type of buildings, teachers, and what courses of study it wishes to provide. State supervision and state aid can do much to improve the educational standard, but centralization of authority combined with any general lack of local interest is bound to produce a uniform and monotonous mediocrity. A uniform system for accounting or for any other mechanical operation tends toward ease and efficiency, but God forbid that we should ever drift into lazy methods of uniformity in handling and in educating the infinite variety of live boys and girls in our public schools. This is a time for local interest to increase, for intelligent criticism to assert itself, and for electing to the school board, men and women with qualifications for strong leadership.

Respectfully,

GEORGE W. SUMNER.
